SECURITY

23rd December

6:00 PM

CSE Seminar Hall

Refreshments provided

// What really powers your money? CSES's Fintech Workshop explores the transformation of digital finance – from payments, lending, blockchain, and crypto to the systems driving modern finance. This hands-on, interactive workshop breaks down the technology behind fintech, including security, databases, cloud, machine learning, and startup trends. Discover fintech where finance meets code, innovation, and the future. Refreshments will be provided.

23rd December

CODEMON

COMPETITION

CSES PRESENTS

CODEMON

GOTTA SOLVE 'EM ALL – A year-long competitive programming series

YEAR-LONG SERIES

COMPETITIVE PROGRAMMING

3 SESSIONS

SE LAB, CSE DEPT | AUGUST 24, 10AM-1PM

// CODEMON is a year-long competitive programming series by CSES that aims to strengthen the coding culture on campus, provide a platform for consistent learning and competition, and foster collaboration and knowledge sharing through discussions. So far, we have successfully conducted 3 sessions as part of this ongoing series and scheduled more to come.

130+ Participants

2200 Submissions

11 Oct 2025(v3) – Recurring Series

Contest 1 (CodeForces):				
Held on CodeForces. Due to technical issues during the contest, scores were not recorded, and ranks were determined by score only.				
Contest 2 (HackerRank):				
CodeMon Contest 2 was held on HackerRank. All participants received scores, and ranks were determined by score only. Streak bonuses are applied based on participation in previous contests.				
Rank	Total Score	CodeMon Contest 1	CodeMon Contest 2	CodeMon Contest 3
1	66.15	Score: 28.00 (10.00+10.00+8.00) Rank: 1 Streak: 1x	Score: 5.25 (1.00+1.00+1.00) Rank: 1 Streak: 2x	Score: 3 (1.00+1.00) Rank: 1 Streak: 1x

ATID – ACE THE INTERNSHIP DRIVE

ONLINE TEST

CSES PRESENTS

ACE THE INTERN DRIVE

Intern season is coming. Experience a real internship Online Test before the actual drive begins – mirroring the pattern and pressure of top tech companies.

ORACLE

UBER

TEXAS INSTRUMENTS

PHONEPE

GOLDMAN SACHS

 21st February |  10 AM – 12 PM |  SE Lab

// CSES presents Ace the Intern Drive (ATID): Online Test. Intern season is coming – are you ready? This is your chance to experience an internship Online Test before the actual drive begins. The ATID OT is designed to mirror the pattern and pressure of top tech companies like Oracle, Uber, Texas Instruments, PhonePe, and Goldman Sachs. A trial run to see the process firsthand and test your skills before the stakes get high.

 21st February |  10 AM – 12 PM |  SE Lab

ML WORKSHOP

TECHNICAL WORKSHOP

CSES PRESENTS

ML WORKSHOP

Kickstart your Machine Learning journey – no prior ML experience required. Explore Deep Learning, Neural Networks, and real-world AI applications.

DEEP LEARNING

NEURAL NETWORKS

LIVE DEMOS

HANDS-ON

 7th January |  6:00 PM |  CSE Seminar Hall | Refreshments provided

// CSES presents a hands-on ML Workshop. Curious about how machines recognize handwritten digits, learn patterns from raw data, and how AI makes decisions? Kickstart your Machine Learning journey with no prior ML experience required. Learn how machines learn from data, explore real-world applications, and get hands-on with core ML concepts such as Deep Learning and Neural Networks. Live demos, guidance from seniors, and a strong foundation for future AI/ML projects. Refreshments provided. Get your laptop ready!

 7th January  6:00 PM  CSE Seminar Hall
